CDC Coalition

March 22, 2023

The Honorable Robert Aderholt Chair House Appropriations Subcommittee on Labor, Health and Human Services, Education, and Related Agencies Washington, DC 20515

The Honorable Tammy Baldwin Chair Senate Appropriations Subcommittee on Labor, Health and Human Services, Education, and Related Agencies Washington, DC 20510 The Honorable Rosa DeLauro Ranking Member House Appropriations Subcommittee on Labor, Health and Human Services, Education, and Related Agencies Washington, DC 20515

The Honorable Shelley Moore Capito Ranking Member Senate Appropriations Subcommittee on Labor, Health and Human Services, Education, and Related Agencies Washington, DC 20510

Dear Chairs Aderholt and Baldwin and Ranking Members DeLauro and Capito:

The undersigned 144 members of the CDC Coalition and other supporting state, national and academic organizations urge you to include at least \$11.581 billion for the Centers for Disease the FY 2024 Labor, Health and Human Services,

Education and Related Agencies appropriations bill. Strong funding for CDC is critical to supporting all of activities and programs, which are essential to protect the health of our \$701.cies ies

partners rely on CDC for accurate information, direction and resources to ensure they can prepare, respond and recover from a crisis or disease outbreak.

CDC is also faced with other unprecedented challenges and responsibilities including chronic disease prevention. As the pandemic has demonstrated, chronic diseases and infectious diseases are inextricably linked. Good underlying health is a critical component to preventing severe infection and death from communicable diseases.

CDC plays a leading role in combating the opioid, tobacco, e-cigarette and obesity epidemics as well as emergency preparedness. CDC funds programs for strengthening public health infrastructure at all levels; strengthening and expanding the public health workforce; injury prevention; research into gun violence prevention; suicide prevention; global health security; health promotion in schools and workplaces; the prevention of diabetes, heart disease, stroke, cancer, lung disease and other chronic diseases; tobacco prevention and control; nutrition and physical activity; immunizations;
